Dear Mr. Marshall;

This is a letter in opposition to the so called South Delta Improvements Program. The EIR/EIS are flawed and inadequate in addressing the damage the SDIP will do to the Sacramento Delta and the valuable fisheries that reside or pass through there. The plan is to steal northern California water and ship it to greedy, corporate farmers and real estate developers in the south. The delta is dying and the SDIP will be the last nail in the coffin. Please work to defeat this outrageous program.

Very truly yours,

Jim Collins
